LETTER LIST.

The following letters remain uncalled for in the Tombstone post-office for the week ending August 13th, 1887:

Barrock Mrs. Lola Nelson S. R.
 Coleman S. S. Rhodens Charles
 David B. F. Savage W. H.
 Johnson John P. Smith W. H.
 Le Van F. C. Sullivan John
 Linstrum Mrs. Kate Stuart M.
 Lynch J. H. Thorndale Herbert
 Merica John Wells C.
 Mitchell Thomas E. Wilson Emmet.

SPANISH.

Santiago Kale Juan Gallego
 Jose B. Subiran Refugio Leal

Any person calling for any of the above letters will please say "advertised" and give the date.

C. S. CLARK,
 Postmaster.

Amos Keeter.

(Cleveland Sun.)
 There's a lively little creature which is known as Amos Keeter, and it couldn't be much fiercer if it tried.

It is ever sweetly singing while about you, swiftly winging, seeking out a place for stinging through your hide;

In pore 'tis ever wading, lanced from granite and from marble, till its veins are overlaid with the stuff;

And yet, through rich its diet, the small creature never is quiet, and you really can't come nigh it—which is tuff;

You think you're sure to lam it, and against the wall you jam it, but you'll sadly mutter "blame it," as he skips;

Oh, smart is Amos Keeter, on your very nose he'll teeter, and he says "this is my meeter" as he nips.

Confound the wretched creature, he swells your every feature, and he bleeds you like a leech or dith off your face.

Oh, if he sang in Eden, no stronger proof I'm needing of the cause of the scedeen from the place.

The infant child of A. R. English, Esq., died this morning.

The finest lines of stationery and fancy goods in town to be found at Joe Brown's.

King Solomon Lodge, F. and A. M., holds a special meeting this evening in the third degree.

Richard Rule, of Yuma, a former editor of the EPITAPH, is visiting his many friends in this city.

Four large American horses are at File's ranch, in the Chiricahuas, where they await an owner. They are branded with a curved X.

It is reported that J. E. Durkee has been offered \$125,000 for his 500-acre ranch between Los Angeles and Santa Monica. He wants \$150,000.

There will be a regular meeting of Burnside Post, G. A. R., this evening. Every member is expected to be present, as important business is to come before the post.

Palmer Seamans, G. S. Bradshaw and Wm. Bradley, accompanied by their better halves, went out to Igo's ranch last Saturday, and spent a day or two fishing for the seductive carp and otherwise enjoying themselves hugely.

Frank Wilson was hanged in Prescott yesterday for the murder of the Clevenger family. He made a confession on Thursday to the effect that his companion, John A. Johnson, colored, had nothing to do with the murder, and as a consequence the latter, who was also sentenced to death, was respited by the Governor.

W. J. Berner, of Ramsey Canyon, in the Huachuca, who was severely wounded during the war, received notice this week that his application for a pension had been allowed, and he will hereafter receive \$12 a month. Mr. Berner is a deserving old soldier, and should have had a pension long ago. Hon. M. A. Smith, while in Washington, visited Commissioner Black and warmly urged the claim of Mr. Berner. Mark receives only the warmest thanks of Mr. Berner and his friends for so doing.

A full line of Spring and Summer goods have just been received by Harris, the Tailor, and they will be made to suit customers or no pay demanded. Call and examine my stock before ordering elsewhere.

HARRIS THE TAILOR.

Unnecessary Misery.
 Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. HAMBURG FIGS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. Mack & Co., proprietors, Arizona.

MINING MATTERS.

Encouraging Reports From Various Producers.

Tombstone Mine-Owners Show Continued Confidence.

An EPITAPH reporter yesterday visited most of the mines now being worked in this district, and was pleased to find more activity and a better feeling than have existed since the burning of the Grand Central works. At the

GRAND CENTRAL.

A large force of men are at work upon the new buildings and machinery. The new shaft house will be 110 by 36, and 48 feet high, and will be a frame structure similar to the old one destroyed by fire. The carpenter and machine shop, now completed, is 56 by 42 feet, and is also a frame. The large lathe and planer are already in position, and the machinists are busily engaged in repairing the hoisting engine, which was not seriously injured by the flames. The blacksmith shop will be 80 by 20. The boiler room is 80 by 40, and is a substantial fire-proof structure, being built of stone, brick and adobe, with an iron roof. The walls are now several feet high, and are rapidly going up. Six boilers are already in position, and two more will soon be in place. Three shifts of miners are at work in the new shaft, which has just tapped the 300 level of the old workings, and are now at work cutting out a station. Ore is being raised from the first level by the temporary hoist, and by the last of this month, the amount will be largely augmented from the 300-foot level. Everything about the place appears to be running as smoothly as clockwork. There is considerable satisfaction in noting the fact that the reliable old Grand Central is once more a producer of good ore. She has had a long rest, but is now ready to respond to the call upon her resources. Out of the different properties belonging to the Grand Central company sufficient ore is shipped to their mill near Fairbank to keep twenty stamps continually running. The company had the names of 256 men upon their pay roll last month, and will have more this month.

In the Emerald drifts on the different levels were advanced ten feet the present week. The mine is looking well. The State of Maine is running along in the usual manner, producing its customary quantity of rich ore. In the Boss, drifting is continued from the 300 level. Indications continue favorable. The Southern Belle is being prospected by what is called the Sonora drift, from the 300 level of the Grand Central, hoisting from the Dipper shaft. In the Grand Dipper drifts are being run on the 200 level south and west.

BUNKER HILL.

This property is being systematically worked under the superintendence of Mr. B. S. Coffman, and is owned by a Chicago company. On the 400-foot level, a drift is being run to connect with a winze from the third level. It will require 52 feet more of work to make the connection. On the second level connection was made this week with a stope carried up from the third level. The company have eighteen men employed, and are shipping their ore to Charleston.

OMEGA.

This property which was owned by W. A. Harwood and Henry Fry, was sold this week on a bond held by Judge W. B. Benson, to M. J. Sullivan and Edward Koch, of Chicago. The amount paid was \$6,000. The only development was an eighty foot shaft and thirty feet in drifts. Some very rich ore has been produced, and the showing continues very good. Six men are now employed in putting up a winch, timbering, etc. By the middle of next week, everything will be ready to start in earnest, when three shifts will be put to work sinking and drifting.

NOTES.

C. H. Light, well known here in the early days of the camp, came in Thursday from the Aravaipa canyon, where he and R. N. Leatherwood have some mines bonded. Mr. Light represents the property as the finest silver-lead proposition he has seen in the country. The ledge on the "No. 9" mine goes 30 percent lead, 20 ounces in silver and \$5 gold. The property is only twelve miles from the Deer Creek coal fields.

Near Cedar Springs, on the east side of the Graham mountains, a rich gold strike is reported. The ledges are small though very rich.

Chas. W. Leach, who went to San Francisco to receive surgical treatment for a dislocated shoulder, caused by falling down a shaft, has not been much benefited, and with his wife is now at Paso Robles Springs.

The ten-stamp mill of the Black Bear company, at Ash canyon, has been purchased by the English owners of the Old Guard, and will be placed in position on the mine as soon as the large force of men now employed can perform the work. It is said the Old Guard has sufficient ore in sight to keep the mill running for a year.

BISBEE NOTES.

Two stacks are in full blast upon Copper Queen ore. The mines are producing the usual quantity. The Queen company are making many improvements. A two story building, to be used as a reading room and hall for meetings is in contemplation, and electric lights will soon be added. The steam wagon

is making successful trips daily, hauling from fifteen to twenty tons of ore.

The Silver Bear mine was started up three weeks ago, and has been running successfully ever since; pay ore having been found during the first week. The old whims were repaired and a new road built from the main shaft down to the canyon, and the daily shipment of ore will soon begin.

A CLOUD BURST.

Narrow Escape of a Party of Tombstone Pleasure Seekers.

As Judge and Mrs. Berry, accompanied by their niece, Miss Annette Ellis, Mr. Frank Earle and Master Allie Howe, were returning Tuesday from a short trip to Camp Rucker and the camp of Colonel Herring, in the Swisslams, they were overwhelmed by a cloud burst when within a mile or two of home, and had a very narrow escape. It was about 4 o'clock in the afternoon that they noticed a very black cloud in the direction of the Dragon mountains, and hurrying up their horses to avoid the rain, came to the main gulch which runs past the limekiln north of town and heads in the Dragonos, the water in which was running quite rapidly and in volume. Being so near home they concluded to risk the crossing, and into the flood they went. The horses lost their footing, but struggled to the bank and broke loose from the carriage, which immediately tipped over on its side. After almost superhuman efforts the Judge and Mr. Earle succeeded in getting the ladies and boy from the vehicle, the curtains of which were closed down, and all reached the bank in safety though the torrent swept between them and town. They went to the house of Mr. Young, a half a mile down the gulch, where they got a Mexican to swim his horse through the torrent and bring a message to town. Word was brought to Bramer Brown, who took a carriage and brought the party home about 9 o'clock, the flood in the meantime having subsided. The next morning a party went out to look for the horses and vehicle and found the former unscathed near the scene of the accident. The carriage had been washed down the gulch and was a complete wreck. The wheels were broken off, the bed and top were torn to splinters. A satchel and one of the cushions were found in a tree top and other articles were never found at all. Marks on the bank showed that the water had been ten feet deep and a hundred yards wide.

Sad Accident.

Last Tuesday morning about 2 o'clock Frank Gage, the 19-year-old son of our esteemed townsman D. W. Gage, fell from the 400 to the 600 level of the Emerald mine and was instantly killed. The circumstances were these: Frank was employed in running a car, and had neglected to let down the cross-bar, which allowed the car to go down the shaft, the cage being above at the time. Having hold of the car, of which he had lost control, he was drawn into the shaft and fell with the car to the bottom. The lifeless body of the young man was at once taken on top, in a horribly mangled condition, and an inquest was held the same day by Justice Shearer, acting as Coroner, when a verdict was rendered in accordance with the above facts. The funeral took place from the Methodist Church, on Wednesday morning at 10 o'clock, and the remains of the unfortunate young man were followed to the grave by as large a funeral procession as ever passed through our streets. This was due to the high regard in which Frank was held in this community. Quiet and unassuming, he had such sterling traits of character that he had become endeared to all who knew him, and the universal feelings of sorrow over his untimely end is but a just tribute to a worthy young man. The bereaved family have the heartfelt sympathy of our entire people.

To the Public.

Having purchased the entire interest of Jos. Pascholy in the undertaking business in this city, I will hereafter devote my special attention to said business. Embalming and the preparing of bodies for removal a specialty. Orders filled in any part of the country.

A. J. RITTER.

The Old Reliable.

The Pioneer Stables of this city are always to the front. Messrs Hare & Page spare no expense at their stables on Allen street, above the Occidental hotel. Their carriages are the best and their horses compare favorably with any on the coast. Horses boarded by the day, week or month. Their saddle horses are the best in the city. Mining men wishing to visit Sonora can be supplied with good outfits, at the most reasonable rates, and in fact cheaper than any place else in the city or country.

Sudden Death.

Dr. Flint's Heart Remedy will prolong life by preventing those sudden deaths from heart disease which bring untold grief to families, often plunging them into poverty, because of the untimely disease of the bread-winner. At druggists, \$1.50. Descriptive treatise with each bottle, or address J. J. Mack & Co., San Francisco.

The Latest and Greatest Discovery.

Dr. J. De Pratt's Hamburg Figs—a crystallized fruit cathartic. A boon to every household. A most delicious laxative or purgative, prepared from fruits and vegetables. So perfectly harmless that they may be administered with entire safety to an infant. So efficacious to adults that a single dose will prove their value, and so elegant a preparation that it needs only to be presented to the public to become a necessity in every household throughout the land. For liver complaints habitual constipation, indigestion, dyspepsia and piles, they are a specific. To travelers by sea and land they will be found invaluable; they are positively unfailing in their action, and this is the only medicine ever offered to the public that is acceptable to the taste, and so pleasant that children will eat the figs as eagerly as candy. For sale by every druggist throughout the world. Price 25 cents a box. J. J. Mack & Co., Prop's, 9 and 11 Front street, San Francisco, Cal.

Leave your orders with Joe Brown for the S. F. Chronicle and Examiner—daily and weekly.

Notice.

The American Bakery will be closed on Sundays from 10 a. m. to 4 p. m.

For any style of rubber stamps go to Joe Brown. All orders filled at catalogue prices.

Heart Disease!!

Read the hospital reports, read the mortuary reports, read the medical publications, read the daily newspapers, and learn how wide-spread is heart disease, how difficult of detection it is to most people, how many and how sudden are the deaths it causes. Then read Dr. Flint's Treatise on Heart Disease, and learn what it is, what causes it, what diseases it gives rise to, what its symptoms are and how it may be attacked. If you find that you have heart disease, ask your druggist for a bottle of DR. FLINT'S HEART REMEDY. The treatise may be had on application to J. J. Mack & Co., Nos. 9 and 11, Front, San Francisco.

Terrible Pains.

D. R. FLINT'S HEART REMEDY banishes sick headache, and will prevent the return of this most terrible of pains if taken when the warning symptoms give notice of the recurrence of an attack At Druggists, \$1.50. Descriptive treatise with each bottle; or address J. J. Mack & Co., San Francisco.

We are now prepared to draw drafts direct, issue letters of credit, and transfer money by mail, and cable, on all points of Europe, Asia, Africa and Australia.

APPLICATION FOR U. S. PATENT NO. 456.

Notice of Application of the Copper Queen Consolidated Mining Company for a U. S. Patent for the Belle Isle Mining Claim.

UNITED STATES LAND OFFICE,
 TUCSON, ARIZ., Aug. 6, A. D. 1887.

Notice is hereby given that the Copper Queen Consolidated Mining Company, by Ben Williams, its agent, whose post office address is Tombstone, Arizona, has filed its application in this office for a patent to 147.5 linear feet of the Belle Isle vein, lode or mineral deposit, including gold, silver, copper or other minerals, with surface ground 578.5 feet in width, lying and being situated within the Warren Mining District, in the County of Cochise, Territory of Arizona. And the said Company by its said agent being about to make application through this office to the United States for a patent to said mining claim, which claim is more fully and particularly described as to notes and bounds, by the plat and field notes of the official survey thereof now on file in the office of the Register of the U. S. Land office at Tucson, in the Territory of Arizona, whose field notes of survey describe the boundaries and extent of said claim on the surface with magnetic variation at 12° 14' east, as follows, to-wit:

Commencing at the initial monument situated at the West-end of claim at a post 42.4 inches, five feet long, set in a monument of stones, post marked I. M. B. C. No. 1, thence S. 14° 29' 30" E. to a stake set in a monument of stones and marked B. I. M. C. No. 1; thence S. 77° 09' W. 145.6 feet to a stake set in a monument of stones, and marked B. I. M. C. No. 2; thence N. 14° 29' 30" E. to a stake set in a monument of stones, and marked B. I. M. C. No. 3; thence S. 14° 29' 30" E. to a stake set in a monument of stones, and marked B. I. M. C.
